

Credit Repair Solutions for the Auto Industry

How often do you spend time with a customer that has found the car of their dreams and as a result of bad credit, you were forced to turn the buyer away?

We have designed a new innovative approach to help our customers. Credit restoration by Kredit Concepts is revolutionary concept and service that gives each customer another chance, buying power, debt management, and improved credit health in only 4-6 months.

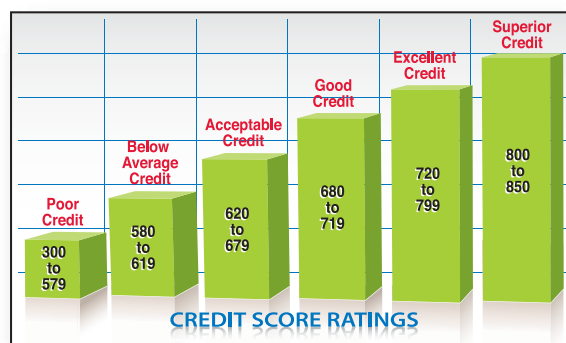

Your previously credit weak customers' will potentially leave our program with the credit score necessary to purchase the car of their dreams. We will investigate and like an attorney defend our customers by assuring they are treated fairly within all laws on credit reporting such as, bankruptcies, foreclosures, liens, late payments, charge offs, judgments, garnishments, collections and repossessions; all while treating them with integrity and assuring confidentiality each step of the credit restoration process.

We have a "train the trainer" education philosophy, you learn from us and your client can learn from you, in the end we will work together to benefit those who come first...our customers!

We have helped thousands of customers' get their credit back on track. Our staff is committed to working hard to exceed you and your customers' expectations it is our promise.... It is our guarantee!

Call us today! We have experienced credit repair advisors ready to assist and address any questions you may have about the credit restoration process and our informative online client and affiliate tracking system.
